Fun of Festivals

Festival is a time of fun

In Holi we play with colourful gun

Diwali is the festival of diyas and light

We burst crackers at night

Festival is the time to meet friends

And eat the sweets they send

In Christmas we buy X-mas tree

Santa Claus and lights we can see

In Holi we eat sweets and play

with colour and gun

In the yellow bright sun

It brings us together with love and glee

And all our worries and stress flee

Book Review

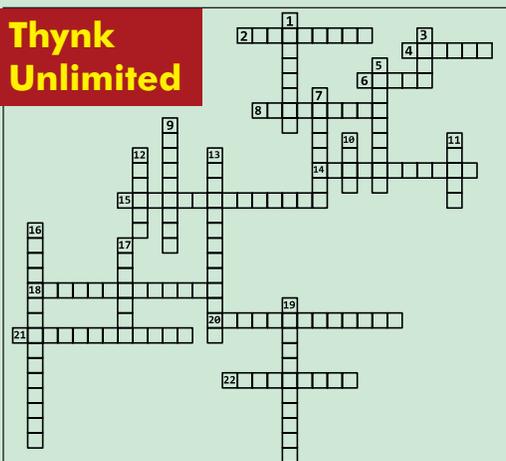

Go set a Watchman

Go set a Watchman, probably the most thoughtful and insightful novel I've ever read. It never gets boring or slow and keeps you engaged, especially with the life of Jean Louise and her childhood memories. You yourself would get a nostalgia if you've read 'to kill a mockingbird' earlier. And at a point, you would feel betrayed by Atticus and this novel would completely change Atticus's image, that you've set in your mind by reading the prequel. But you can't really hate Atticus, can you? And let me tell you, your stand on how you see Atticus completely depends on your political stand about the issue, so the novel is quite political too, but not too much like '1984'.

Ulysses

Few remarkable things about the book that keeps people hooked on the plot that conspires over the course of a single day is the story of three characters: Stephen Dedalus, Leopold Bloom and Leopold's wife Molly. What makes this novel a magnum opus of the literary world is how it's told, each chapter is written in a different style. Use of techniques like onomatopoeia, repetitions and alliteration to imitate music, story with hyperbolic interruptions. Last but not the least reproducing the evolution of the English literature prose style.
